DAY-TO-DAY POWERBEAM: MEET THE POWER COUPLE

Ultra-efficient PowerBeam adds impressive capabilities to Day-to-Day tables. Available in multiple lengths, angles, and heights to optimize space within your floorplate, PowerBeam ties it all together, putting power just where it's needed.

Thousands of table combinations, and the power to support them. There's nothing this dynamic duo can't do.

THE POWER TO WORK ANY WAY YOU WANT

Who wants to sit by the outlet? Everyone! PowerBeam makes it possible with multiple outlets within easy reach. It can be cleanly mounted just below the worksurface without extra supports, helping you maintain a wide-open, minimal look throughout the whole office.

Undermount option available Q1 2020

WORKING TOGETHER
FOR THE GREATER GOOD

PowerBeam was designed with Day-to-Day Tables in mind, yet it teams up easily with many AIS products. Here, PowerBeam securely rests on the Calibrate lower storage, which nicely conceals the Calibrate Height Adjustable Table leg inside while offering user storage and guest seating.

The result—an integrated workstation that supports healthy posture shifts throughout the day. Now, that's a real power play.

ONE SIMPLE BEAM SO MANY WAYS TO FILL THE WORKSPACE

Choose from straight, 90° or 120° layouts.

Design with or without end panels or storage. You're free to plan whatever kind of space users need.

Have a meeting? Pull up a table... we've got power.

PowerBeam works with Calibrate Height Adjustable Tables, concealing legs within storage to save space and simplify the look.

Just two supports for every 96 inches makes PowerBeam a clean, cost-effective way to design a flexible workspace.

PowerBeam brings power to fixed height work stations and gracefully extends to meeting space with an optional power puck.

The hunt for outlets is over. With up to 8 receptacles in every beam, the power is everywhere.

Reduce vertical supports by specifying PowerBeam mounted on Calibrate Storage.

Less really can be more. With a value-engineered solution, a short straight section can extend power beyond the beam and even create 90° and 120° layouts.

New Day-to-Day Benching Tables are dimensioned to match end panels and storage, making planning worry free.

PowerBeam's disc-base and T-base are so low-profile, storage and table legs can be placed directly over top.

Place tables perpendicular to the beam to make the most of your space.

OPEN UP THE POSSIBILITIES

All you see is a modern, minimalist design—tables, screens and storage with a wide variety of fabric and finish options. Yet PowerBeam is working hard below the worksurface, providing the structure and power to make all things possible.

1

BEAM

Flexible dimensions to fit every space

- Sleek profile: 2.5 inches wide by 8 inches tall
- 21, 25 or 29 inch height
- 36 to 96 inch runs in 6 inch increments
- Connections: Straight, 90° and 120°
- 2 inches of leveling

Roll up and get to work
 Stay for a day or a week. Just plug in and then roll out when you're done. Your space. Your way.

2

SUPPORT OPTIONS

In addition to its leg options, PowerBeam can also be supported by storage or end panels

- 29-inch PowerBeam can be supported by storage, 18-inch T-base, disc-base or end panels
- 21- and 25-inch PowerBeam can be supported by the 12- or 18-inch T-base, disc-base or end panels
- The post leg can be used on corners. See price list for other uses
- Up to 96 inch runs with just two supports

PRACTICALITY MAKES PERFECT

An agile, user-friendly set of options lets you tailor the details exactly to your needs. From size and materials to support elements, PowerBeam can be whatever you want it to be.

3

POWER & DATA ROUTING

- Connect power from floor, ceiling, or wall to every workstation
- Choose power access on one side or both
- Optional Vertical Wire Managers collect & protect cables
- Optional powercord tray for easy cord management
- 4-circuit power

Plug in at the desk
 Multiple styles provide options for power, USB and wireless charging.

4

SCREENS

Choose to mount them directly to PowerBeam or to adjacent tables. Available in framed fabric, markerboard, or glass (refer to pricelist for glass mount options).

Extend the power
 Bring power beyond the workstation to an impromptu meeting space complete with whiteboards.

Easy leveling
 Legs have two inches of adjustability making it simple to level, even across long runs.

5

PERFECT COMBINATIONS

Paired with tables

Day-to-Day PowerBeam can be paired with traditional height adjustable tables or Day-to-Day Benching tables when alignment to end panels or storage is required.

Paired with storage

PowerBeam and Calibrate Height Adjustable Tables are ideal for high-density applications, allowing you to hide legs within the storage for a cleaner look.

Tables for the rest of the space

From occasional tables to training tables, meeting tables, and height-adjustable tables, Day-to-Day's extensive collection has all of your table needs covered.
