

Finally... an adjustable palm support developed for desktop, keyboard tray and keyboard drawer use!

The ComfortSLANT™ Palm Support

Item #1.100

ComfortSLANT's removable wedge levels the keyboard angle, encouraging the neutral wrist position recommended by many doctors and ergonomists.

For keyboard drawers, remove the pre-cut portion of the and slip into your existing drawer, then choose your keyboard angle.

In most cases, if your elbows are lower than the keyboard, leave the wedge in place: if they are even with or above the keys, try removing the wedge by cutting along the joined edges. Your new ComfortSLANT palm support lets you choose the most comfortable position for you.

ComfortSLANT™ is

- Constructed from special aesthetic foam for years of comfort.
- Designed to provide therapeutic support for the arms, shoulders and neck.
- Compatible with both PC and Mac keyboards.
- Washable. (Just use warm soapy water, rinse well and gently squeeze dry.)
- Non-conductive.
- Fire retardant.
- Made in the U.S.A.

While evidence supports the premise that palm support may reduce the risk of injury, medical opinions may vary.

Healthful Hints

- Adjust your chair and/or keyboard height so your forearms are level.
- Avoid bending your wrists excessively up or down, or side to side, while typing.
- Relax your shoulders and use your chair's arms only if they support your elbows at a comfortable height close to your body.

3401 Madison Street Skokie, IL 60076
