tilt & nest training tables and support products

furniture for public spaces

 COMMUNITY

**Gather.** Coming together.

To relax, to learn, to dine, to work, to wait or just to be near others. Whatever the reason, Community provides all kinds of furniture for the places where people gather. Chairs, stools, lounge and bench seating that is designed and crafted for comfort and durability. Tables and casegoods for both work and play. From the smallest to the largest, anything and everything is just a call away.

**Dine.** Eating a meal.

Whether in a pub, a corporate cafeteria, a food court, a banquet hall, a hotel, restaurant or refined establishment, the basic needs are the same - a comfortable chair and a sturdy table. With time-tested selections of standards, mixed materials and customized solutions we've got a table and chair combination for you.

**Learn.** Gaining knowledge or skill.

From early childhood through college, and then continuing with career enhancements, life lessons and recreational enterprises, we constantly strive to improve ourselves. With seating, desks, training tables, storage and support devices, Community supplies the tools needed for teachers and pupils to achieve their goals, and to reach for new ones.

**training tables & support products** Whether you're in a brainstorming session, a study group, an impromptu meeting or corporate training, you'll find **cruz** training tables and support products will enhance your endeavors.

Get moving and get productive with the **cruz** offering from Community.

adjustable height  
and a broad work surface

**lectern**  
communicate  
with audiences everywhere

**utility cart**  
for this  
and that

**flat screen cart**  
for screen sizes 36-60 inches  
get the big picture

**Training Tables & Support Products**

Cruz is a complete offering for learning environments and can be specified for any space where ideas are shared. Tilt/nest tables with modesty panels, wire management and linking capabilities can be configured into various shapes and sizes. Support products, in matching finishes, are designed to complement the tables and your surroundings.

**Power Kits**

Cruz offers both single and double circuit power options for small and large applications. Power kits include power boxes with grommets, connecting cables, wire clamps and safety linking plates. Data ports for internet and network connections are available. Tables can be reconfigured, tilted, nested and stored with power kits installed. Reference the Cruz price list and specification guide for complete details on power kits.

**Non-Directional, Non-Sequential Power**

A non-directional, non-sequential electrical package allows for power in virtually any configuration. Simply disconnect each table, change the configuration, and reconnect the tables no matter the order, no matter the direction. Power in-feed cables can be attached to whichever end of a configuration is closest to your power source.

**Quick Disconnect Power Option**

For multi-use training spaces, where the configuration may not change but the tables are often stored, a quick disconnect power option is offered. A quick disconnect wall outlet combines the durability of a hard-wired system with the convenience of a plug for dependable power and quick table storage.

**Wire Management**

A wire management chase is integrated into each Cruz training table leg for getting power and data from the floor to the table top. There are also options for under the table wire management channels and for organizing electrical cables provided through power kits. Tables can be tilted and nested with wire management and power kits.

**Tops**

Tops are available in any Wilsonart standard laminate in a variety of shapes and sizes.

**Edge Options**

**3mm PVC**

black

white

shadow

slate

platinum

vintage on cherry

autumn on cherry

bourbon on cherry

shea on maple

**2mm metallic acrylic**

titanium

aluminum

**Bases**

Every base is powder coated, providing long lasting beauty and durability in high-traffic environments. Cruz welded steel bases are produced in a cantilever configuration to standard height with base rail lengths matched with top sizes.

**Base Options**

**Powder Coat**

stardust silver

black sandtex

**easy to use tilt mechanism**

Tables can be tilted from either end with a release lever located under the table top. Depress the lever and easily raise the top into the tilted position for storage or transport. To return, just tilt the top back to the work position until the mechanism locks.

**table top power access**

Power kits allow for quick table top power access. Optional data ports for internet or network accessibility are available. Hinged grommet covers help keep your worksurface clean and organized when power is not in use.

**mobility**

Training tables and support products move quicker and with less effort on dual wheel casters. Once you get them in position, lock the casters to create a stable surface. Unlock the casters to return freedom of movement.

**pvc eased edge**

3mm PVC edges are available in 5 solid colors and 4 wood grains, with matching, complementing or contrasting laminate tops. Optional 2mm acrylic edges are available in titanium or aluminum colors.

*Part of the Jasper Group family of brands, Community is furniture for public spaces.*

**The Community brand manufactures furniture that works where we live for how we live.**

From elementary schools to colleges, from the doctor's office to the hospital and from courtrooms to town halls, we provide solutions for the changing demands of our daily lives. Community's offering of furniture is broad. It's diverse. And it meets just about every need where you gather, dine and learn - no matter the industry or space requirement.
