

The Ergomat Hygiene is made of premium rubber and is designed to increase comfort while reducing tripping hazards, body aches, quality issues, and sick leaves. This is the greatest mat for high cleanability.

Unmatched Safety Features

- Molded beveled edges
 - They will never curl up, eliminating tripping hazards
- Any size, any shape mat, always in one piece
 - No overlapping or worn-out connecting mats, also eliminating tripping hazards

Highest Quality

- Virgin raw material only
 - Unbeaten durability and ergonomic relief
- Not only anti-fatigue, but also true ergonomic benefits
 - Unique ergonomic designs, eliminating and preventing common problems encountered in standing environments stimulating the body to increase blood circulation and alertness that will reduce sick leave, workers' compensation and quality issues.
 - Solid mat throughout; no hollow bubbles that collapse

The Hygiene Advantage

- Can be autoclaved (2'x3' only) at 100°C for up to 5 minutes
- Frequent washes will not affect the state of the mat; no curling up, swelling or expanding
 - No loss of the ergonomic properties and no tripping hazard
- Meets USDA / CFIA standards
- Silicone & latex-free
- Choice of 4 colors (Green, Grey, Blue & Red)
 - Cross-contamination risks are prevented
- Cleanroom ISO Class 5 (100)

3-Year Warranty

All Ergomat product lines are conditionally warranted against normal usage* 24 hours a day, 7 days a week. The warranty does not cover damage caused by the mat being dragged or pulled from a heavy load or items being pushed or dragged across the product, such as skids or pallets. The warranty against chemicals, oils, liquids, or other matter differs with the type of mat. Please consult your dealer or an Ergomat Rep to select the correct mat for your environment. The warranty periods starts from the date of purchase. The warranty only covers the replacement of the product, no direct or indirect costs are covered.

* It is considered normal usage when a person stands or walks on the Ergomat with regular footwear in an environment where the temperature is under 25° C (77° F) and the humidity is below 80%.

Resistancy Chart

Outside	Good	<p>This chart is based on prolonged and intensive soaking in the listed chemicals and liquids to the left.</p> <p>The word "Depending" is used when the resistancy depends on the specific chemicals used as well as concentration and that a case study should be made prior to installing the mats.</p> <p>In general, "Bad" indications covers soakage and thus in cases with shorter exposures or limited spillages the defination could go to Medium or Good.</p> <p>When in doubt, contact Ergomat directly at:</p> <p>1-877-ERGOMAT (374.6628)</p>
