

Surface Materials

A comprehensive program thoughtfully selected to complement all of Indiana Furniture's products.

Indiana
FURNITURE

Luxurious Materials coupled with Distinctive Style.

What makes one interior distinct from another is the clever curating of colors, textures, and styles to create something that expresses you and your unique space.

Inspired by nature, our holistic palette provides a relevant light-to-dark spectrum that adds to the beauty of any environment, and features low-emitting finish systems to meet indoor air quality standards which support sustainable initiatives in the workplace.

From the depth of our veneers and textured laminates to our enduring metal, stone, and patterned acrylics, this comprehensive program was thoughtfully selected to complement Indiana Furniture's products, giving you complete freedom to create the environment you want.

Wood Veneer Finishes

Once cured by UV lighting, our UV Advantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating safe work environments within new furniture installations. This has allowed us to earn Indoor Air Quality Certification on our products with UV Advantage finish. Our UV Advantage finish process greatly reduces hazardous air pollutants which contribute to smog formation. Excess UV finish is recaptured over and over again reducing waste material within our facilities.

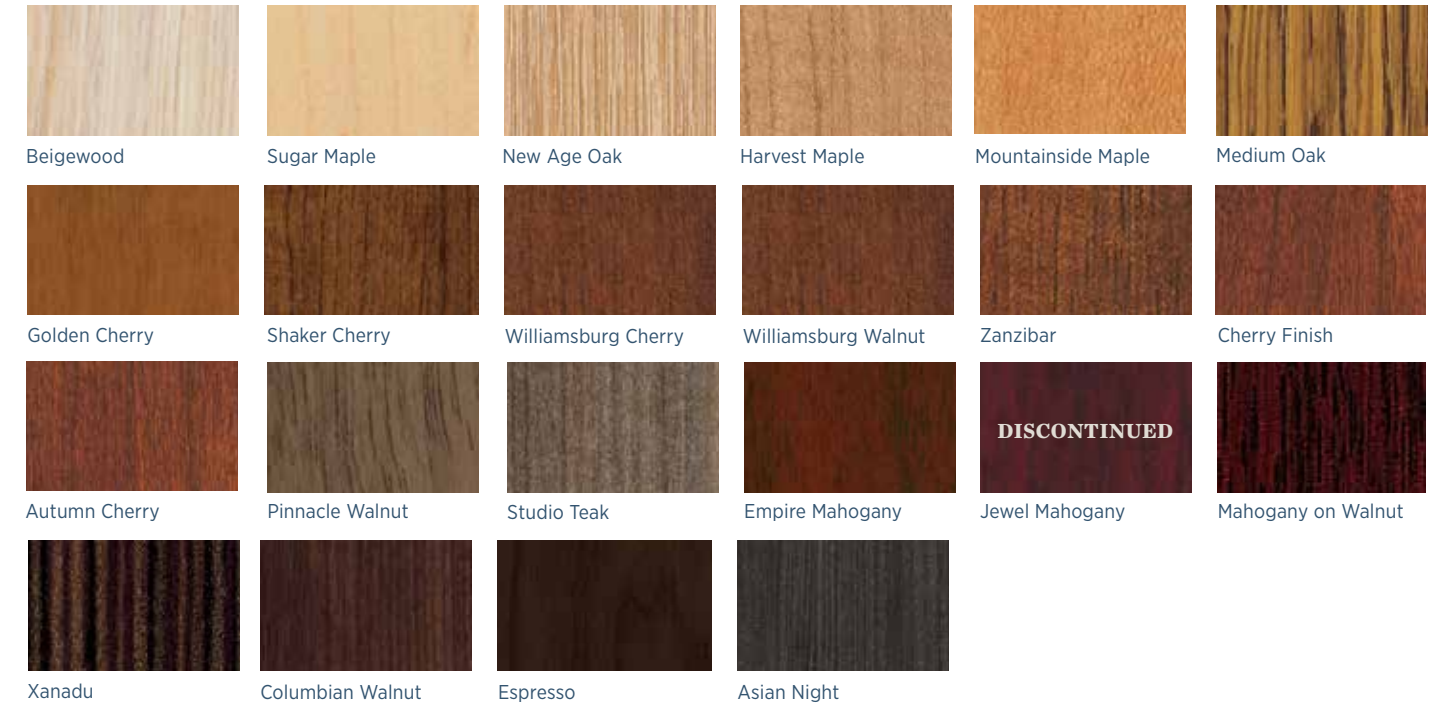

Finishes represented are high-resolution digital reproductions. While every effort has been made to show colors accurately, this printed representation may vary slightly from the actual product. To order samples or project use, please contact customer service or order online at www.indianafurniture.com.
