**progressive work style**

As offices change to serve more than one purpose, Flux sets the stage for both individual, focused work and impromptu in-office collaboration with light-scale, elevated casegoods and freestanding tables.

flux

*Pantry Drawer with Power*  
*Adjustable Height Desk with Modesty Panel*  
*Mobile Adjustable Height Table*

**conventional work style**

Flux proves that classic desk configurations and styles that extend to the floor can still provide flexibility like integrated adjustable height work surfaces.

**Wall-Mounted L Unit**

The classic peninsula desk extends the horizontal grain look all the way down to the floor. Multiple storage options and wire management solutions keep work areas clear. (Rectangular peninsula desk with end panel support, shown with open shelf and sliding door overhead storage, Protocol and Ramona seating)

**Pedestal Desk with Double Height Storage**

The freestanding executive desk features a split-top surface for easy wire management. Double height overheads take advantage of vertical space for extra storage. (Pedestal desk shown with double height overhead storage with open shelves, and Protocol and Ramona seating)

**Adjustable Height Table Desk**

A freestanding, ergonomic table can be used as a workstation or adapt for meetings. The workwall features tack boards, a whiteboard, overhead shelf, bench seating and storage. (Rectangular, adjustable height table with an elevated credenza and workwall, shown with an upholstered Proxy chair)

**Adjustable Height Peninsula Desk**

The peninsula desk looks like a standard desk when lowered, but can be raised all the way up to standing position. Contrasting drawer fronts can be mixed and matched to add extra style. (Adjustable height peninsula desk with modesty panel, file credenza with bench, storage tower and Proxy seating)

flux

**adaptive spaces for adaptive teams**

Easily transform from individual workstations to group meeting spaces. Sliding markerboard doors keep personal items private and contained and reveal integrated TVs for presentations.

flux

**puzzle pieces of style**

Elevated legs, light-scale storage, and integrated technology fit right into virtually any space, even when space is limited. Tables on casters conform to any work style, even if that changes daily.

**Wall-Mounted Storage with Work Table**  
 Perfect for a small meeting space or an individual work station.  
 Accessory shelves and light-scale storage provide a place for shared supplies and personal accessories.

flux

*Wire Channel with Movable Clamp-on Power Unit  
Magnetic, Removable Wall-Access Panel  
Pedestal Desk Hinged Access Door*

**within reach, yet out of sight**

Integrated, split-top wire channels keep cords out of sight and make it easy to plug in devices anywhere along the channel. Removable, magnetic panels provide easy access to wall outlets.

flux

**perfect modular harmony**

In addition to built-up casegoods, Flux features modular pieces that can be assembled into whatever configuration works best.

flux

**peninsula desk mounting options**  
 A peninsula desk mounts to the top of a credenza, either flush to the back or inset five inches, creating a perfect storage cubby for small belongings.

**mobile pedestals**  
 Mobile pedestals are available in two heights, with an optional cushion top to double as a pull-up seat.

***Metal** Pulls, legs, table bases and grommets are available in Arctic Silver, Soft Nickel and Pewter finishes.  
**Edges** Desks and table edges are offered in either an eased or reverse bevel profile. Storage edge profiles are flat for premium fit.  
**Door Fronts** Endless options including contrasting colors, laminate markerboard or back-painted white glass are available.  
**Finishes** Casegoods are available in veneer or laminate finishes. Veneers incorporate our proprietary low-emission finish: DuraTex.
