

## airCentric™

Be cool. Be comfortable. Be productive.

The airCentric provides the benefits of airflow with the proven ergonomic support of foam and fabric offering a truly comfortable seating experience.

This chair combines a sophisticated aesthetic with modular design, full adjustability and airflow comfort.

ergoCentric®

# airCentric™ combines a sophisticated aesthetic with modular design, full adjustability and airflow comfort.

The airCentric Series combines the benefits of airflow with the proven ergonomic support of foam and fabric chairs for a truly comfortable seating experience.

The back and seat are constructed using high resilient polyurethane foam. Ventilation holes in both the back are designed to allow airflow. Vents in the back cap allow continuous airflow through the entire back structure.

Proven ergonomic design and patented technologies are enhanced by the comfort of airflow while its thin profile and detailed finish lend a dynamic presence to any office setting.

---
