# EXCHANGE

At Allseating we believe in workplaces where collaboration and choice encourage movement and accommodate fluctuating occupancy. Designed in collaboration with Nick Gillissie, Exchange is inspired by environments where people 'exchange' words, ideas and information.

Exchange's flexible design gives individuals the freedom to work how they want, where they want, while also being able to adapt to a wide array of aesthetic and functional needs. It's a modular, soft seating system comprised of a concise set of components that can be customized into endless configurations with best-in-class comfort.

BEST-IN-CLASS VISUAL CONTINUITY  
FUNCTIONAL SOFT-SEATING SYSTEM  
INFINITE CONFIGURATIONS DURABLE  
COMPLIMENTARY TABLE COLLECTION  
ELASTIC WEBBING SEAT MODULAR  
COMFORTABLE 13 LAMINATE OPTIONS  
109" UNINTERRUPTED LEGS FLEXIBLE  
RECONFIGURABLE 16 PAINT COLORS  
EFFICIENT 7 COMPONENTS INNOVATIVE  
4 ARM OPTIONS PROMOTES MOVEMENT  
VERSATILE RECYCLED PLASTIC FRAMES

## EXCHANGE DESIGNER

---

**Nick Gillissie** designed Exchange for environments where people ‘exchange’ ideas and information. Its modular design allows pieces to be ‘exchanged’ and customized to fit any need.

Nick Gillissie has a long history of creating award-winning furniture systems for major manufacturers—he won the 2013 Best of NeoCon Design Award for furniture system enhancements. What separates Nick from the pack? Viewing the world through the lens of a systems mindset, Nick perceives furniture differently. He understands the importance of having face-to-face dialogue with the people who make, procure, install, maintain, and live with furniture.

## RECONFIGURABLE FOR MORE POSSIBILITIES

---

What separates Exchange from its competitors? Reconfigurability. With a concise set of seven components, Exchange can be reconfigured into endless configurations.

“Learning how to use a system is a massive time investment. With Exchange, you only need to learn the system once.” – Nick Gillissie

EXCHANGE. WHERE COLLABORATION MEETS CHOICE.

---

Functional, efficient, durable, and flexible: Exchange can support the varied needs of today's workplaces, higher education institutions and healthcare facilities. It does this by creating settings that promote collaboration and movement, while serving multiple purposes. Exchange also gives individuals the freedom to work where and how they want, making it the perfect fit for co-working spaces where occupancy fluctuates.

With its seven concise component parts, Exchange offers near endless configurations, having 2,725 come standard. Being the largest in breadth and depth also has its advantages. Exchange's 109" of uninterrupted legs, provides a consistent visual aesthetic. That's in addition to its best in-class comfort and 2' x 2' blocks for modularity. This flexibility gives designers and specifiers a versatile product that can adapt to a wide range of functional needs.

Driven by a desire to evolve, Exchange Phase 2 deepens its commitment to versatile, purposeful design. Offering a variety of personal item storage formats as well as dampening screen enclosures for added privacy. The evolution of Exchange continues to push boundaries and prove its potential is limitless.
