

A modern office interior with a yellow tint. The scene features a large window with a view of a building, a desk with a chair, and a sofa. The text "SEATING SOLUTIONS FOR THE NEW OFFICE" is overlaid in the center.

# SEATING SOLUTIONS FOR THE NEW OFFICE

# LOOK NO FURTHER, THAN EXCHANGE.

## EXCHANGE

The most modular, reconfigurable and accessible seating system on the market is ideally designed to address post-COVID-19 workplace trends.

Exchange address the needs for:

- + Screens and barriers
- + Reduced & reconfigured sectional seating
- + Isolated areas
- + Conferencing requirements
- + Work from home needs
- + Cleanability and sanitation

# 01: SCREENS AND BARRIERS

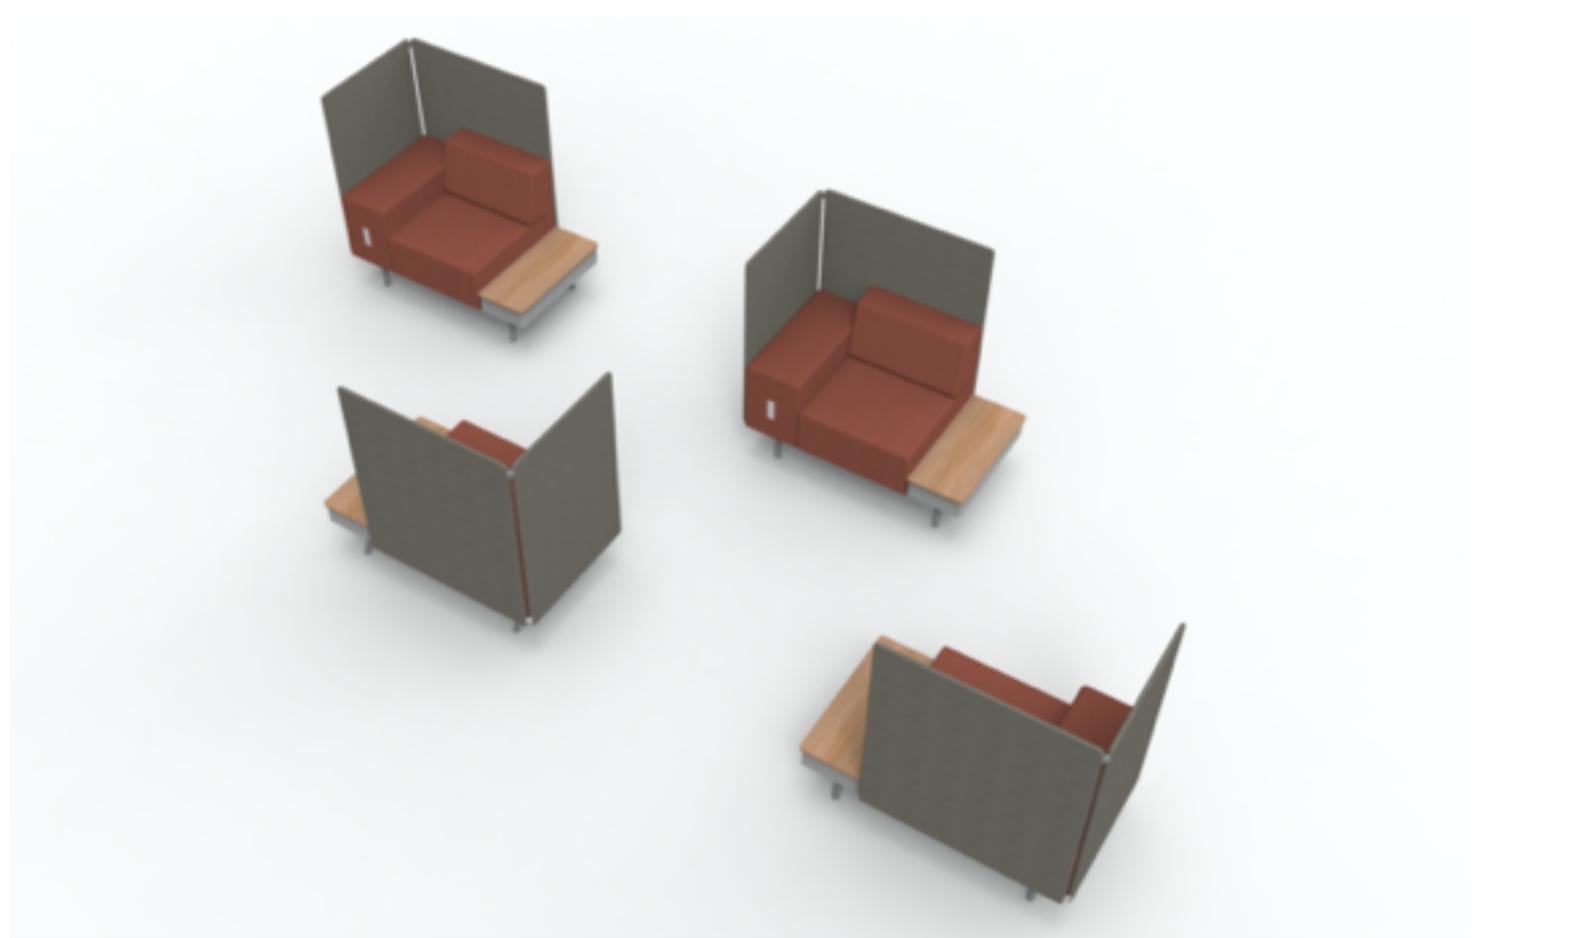

# 01 SCREENS AND BARRIERS

## EXCHANGE

Most modular seating system on the market.

Privacy screens increase in physical distancing while maintaining an open floorplan environment, allowing proper communication and collaboration.

Can easily add and remove privacy screens as needed.

# 02: SECTIONAL SEATING

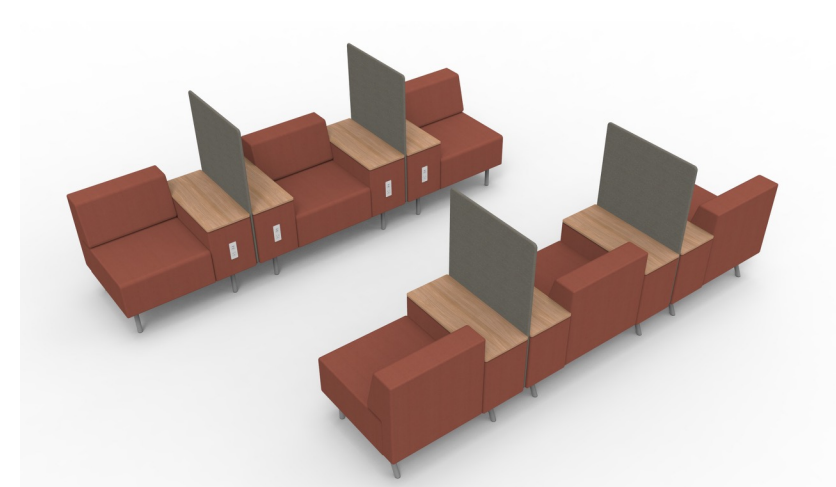

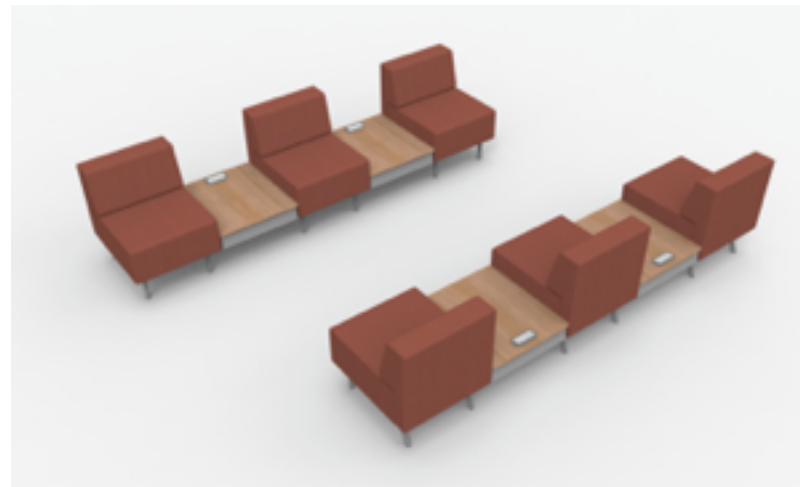

## 02 SECTIONAL SEATING

As “sectional seating” declines, Exchange rises to the occasion.

Seat and back covers can be easily reupholstered.

Separation between seats is increased with middle table configurations.

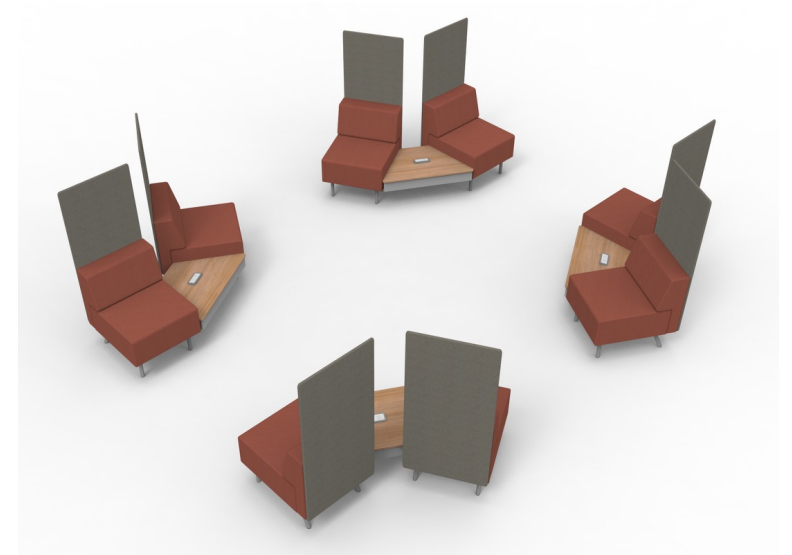

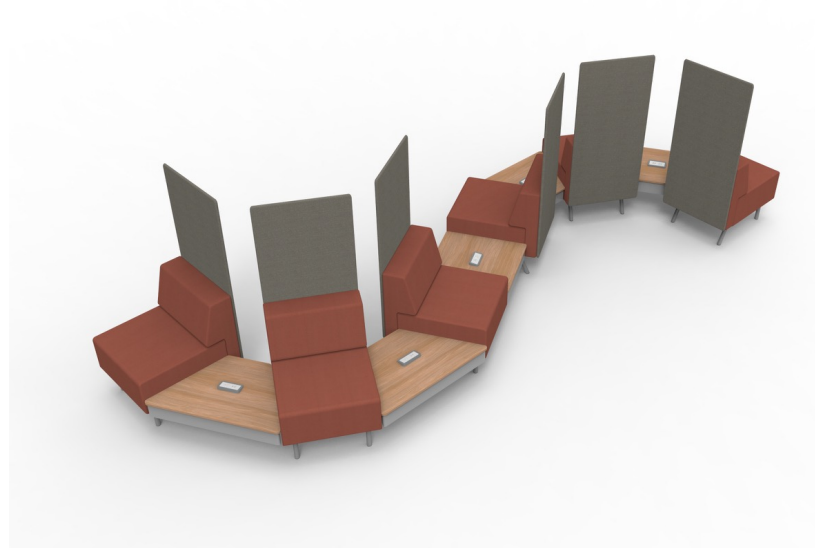

Effortlessly reconfigurable for the end user to respond to changes in population density in offices.

## 02 SECTIONAL SEATING

Curved layouts elegantly provide more space between users.

120° angled middle tables provide function and safety.

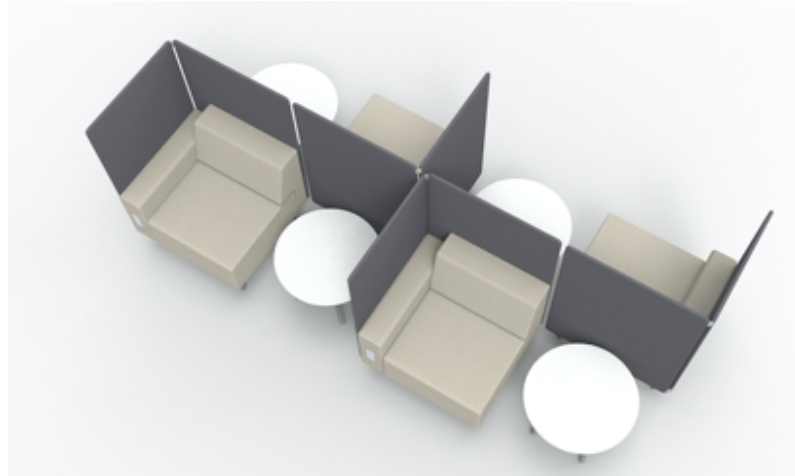

# 03: ISOLATED AREAS

## 03 ISOLATED AREAS

### ISOLATED WORK SPACES

Exchange Work Pods with:

- + Built in power
- + Cleanable laminate surfaces
- + Social distancing screens

# 04: CONFERENCING

### EXCHANGE ENHANCEMENTS

Integrated technology for  
video-conferencing

Whiteboards and 6ft  
appropriate seating

Privacy with modular screens
