

TRAFFIC

High Traffic Design

Practical and resilient, Traffic meets the durability demands of public areas without sacrificing design.

Traffic's crisp, clean aesthetics are combined with robust engineering, creating a low-maintenance solution for your space.

Available in linear configurations, Traffic can fit any high-impact setting by being specified with or without arms and upholstered cushions.

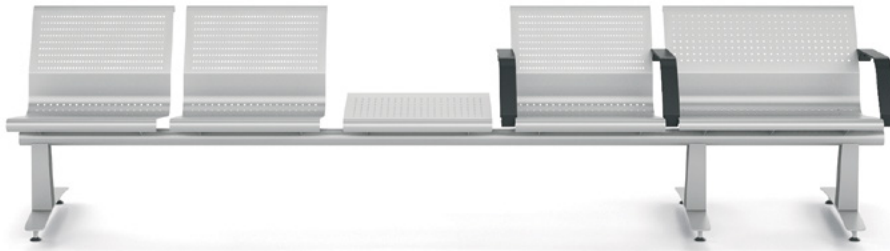

The Traffic Dining model, which comes with a dining table connected to the chairs, is available in floor-mounted configuration only.

Traffic (Top) Upholstery: Momentum Silica, Regatta, Metal Finish: Silver. Traffic (Bottom) Seat Metal Finish: RAL 9016, Leg Metal Finish: Silver.

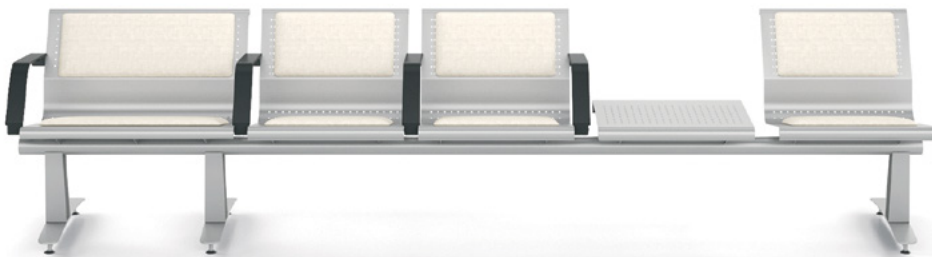

Traffic beam seating can be specified with or without arms or field-replaceable upholstered cushions. 30" wide Bariatric designs are also available.

Metal Seat without Upholstery

7000N 7000N 70ST 7010N 7010NG

Metal Seat with Upholstered Cushion

7010UG 7010U 7010U 70ST 7000U
