

ENCLAVE FRAMELESS DESK DIVIDER

Enclave is a system that fits virtually any need for desktop privacy. Enclave Frameless Dividers sit above the desk and come in clear or frosted acrylic, whiteboard laminate and 7 colors of EchoScape, a sustainably friendly acoustic material made primarily from recycled plastic.

FRAMELESS ABOVE DESK PRIVACY PANELS

CLEAR ACRYLIC (CLR)

FROSTED ACRYLIC (FRO)

CUSTOMIZATION AVAILABLE

The Enclave Desk Divider is designed to merge with any work surface. Available in a wide range of sizes, shapes, styles, colors, special materials, acoustic properties, and mounting options. Connect with an Account Executive for information on specific options and customization.

ACOUSTIC BENEFITS

EchoScape 3/4" (18mm), our 0.9 NRC rated acoustic solution, effectively controls noise disruptions by absorbing sound.

TRIM OPTIONS

Tackable fabric panels are finished with 3 different trim options: Fabric Fold, Edge Band and Metal Trim.

MOUNTING OPTIONS

Choose between our two permanent mounting options that fit any tabletop thickness and our seven removable mounting options that fit a range of tabletop thickness and allow the dividers to be placed on edges, or in the middle of a worksurface.

MATERIAL OPTIONS

Desk dividers available in several materials and colors including Clear and Frosted Acrylic, Fabric, TruBrite Whiteboard and EchoScape.

5 DAY QUICK SHIP

MADE IN THE USA

ENCLAVE MOUNTING HARDWARE

PERMANENT - TOP MOUNT

Install anywhere on the desk. Work on all thickness tops. Clamp position on panel is adjustable. Kits include 2 or 3 Top Mounts depending on the width of the desk divider.

PERMANENT - BENCH MOUNT

Fits between back to back workstations with a minimum gap of 2.25". Clamp position on panel is adjustable. Can be used on all thickness tops. Kit includes 2 to 3 Bench Mounts depending on width of the panel.

REMOVABLE - FREE STANDING

Fast and easy installation and relocation. Stands freely on top of work surface. Clamp position on panel is adjustable. No screwing or drilling into work surface required. A center Pad will be included on units 54" and wider.

REMOVABLE - MIDDLE CLAMP KNOB

Fast and easy installation. Mount along the edge of work surface. Clamp fits 3/4" to 2" thick tops. No screwing or drilling into work surface required. Clamp position on panel is adjustable. Kits include 2 or 3 Clamps depending on the width of the desk divider.

REMOVABLE - EDGE CLAMP HEX

Fast and easy installation and relocation. Mount along the edge of work surface. Clamp fits 1.1" to 1.22" thick tops. No screwing or drilling into work surface required. Clamp position on panel is adjustable. Kits include 2 or 3 Clamps depending on the width of the desk divider. Use when minimum free space is available on underside of work surface.

REMOVABLE - EDGE CLAMP LEVER

Patented Lever allows for easy installation with no low hanging knob. Fast and easy installation and relocation. Mount along the edge of work surface. Clamp fits 5/8" to 2" thick tops. No screwing or drilling into work surface required. Clamp position on panel is adjustable. Kits include 2 or 3 Clamps depending on the width of the desk divider.

REMOVABLE - MIDDLE CLAMP KNOB

Fast and easy installation and relocation. Mount perpendicular to edge of work surface. Clamp fits 1.1" to 1.22" thick tops. No screwing or drilling into work surface. Only one clamp required to secure panel to work surface. Kit includes 1 middle clamp with knob and one or two metal resting plates depending on width of panel.

REMOVABLE - MIDDLE CLAMP SINGLE

Patented Lever allows for easy installation with no low hanging knob. Fast and easy installation and relocation. Mount perpendicular to edge of work surface. Clamp fits 5/8" to 2" thick tops. No screwing or drilling into work surface required. Only one clamp required to secure a desk divider.

REMOVABLE - MIDDLE CLAMP DOUBLE

Patented Lever allows for easy installation with no low hanging knob. Fast and easy installation and relocation. Mounting perpendicular to edge of work surface. Clamp fits 5/8" to 2" thick tops. No screwing or drilling into work surface required. Two clamps for use with larger dividers. A center Pad will be included on units 54" and wider.
