

VILLA WALL

Lightweight and easy to install, the single material core panel Villa Wall is ideal for creating custom cubicles, workstations, study carrels or dividing space without incurring the costly expense of cubicle systems or permanent construction. Build your Villa Wall by designing each panel, then connect them together to create flexible spaces that work for you.

CONSTRUCTION

Framework is constructed using lightweight aluminum extrusion, anodized or powder coated for an aesthetic and durable finish. Available in 3 colors.

WALL MOUNT HINGE KIT

Connect one side of panel to stationary wall
