EverySpace®
designed by CSD Studio

A creative framework for the future.

EverySpace offers adaptable architecture that can flex and flow as needs change and work styles evolve. By putting the user at the center of the design, this modular, customizable platform combines personal elements with functional solutions. EverySpace allows for the creation of tailormade workspaces that elegantly support users throughout their day. Its capabilities are only limited by your imagination.

Distinct Advantage

Spaces that feature perfectly suited touches make an office feel like an extension of your personality. From dual-purpose pedestals and convenient storage nooks to accessories that fit precisely on its beam, EverySpace offers a multitude of storage, caseloads, desk configurations, and accents that put the user at the center of their space.

Flexible and Functional

By designing around user needs, EverySpace brings personal, human feeling into highly functional spaces. Abundant configurations of storage options and worksurfaces, in conjunction with its unique beam platform make the user feel like the space was designed to fit their specific needs and work style. EverySpace's locker storage units are a smart solution that is not only functional but offers spatial and acoustical division.

Meet in Style

EverySpace composes gathering areas that are welcoming and eye-catching. Available in multiple sizes, the freestanding conference tables showcase EverySpace's angled leg design, which can be painted to feature sensible style or dramatic flair. In addition, EverySpace also offers a collection of freestanding tables in a variety of sizes, shapes, heights, and leg styles.

Open Dialogue

Scalable in size, EverySpace offers components that can be used to outfit every space from shared workstations in an open plan environment to touchdown stations and private offices. With a vast offering of storage solutions that put everything within arm's reach and can double as space dividers, EverySpace's flexibility beautifully creates a cohesive aesthetic.

Cozy Comforts

This multi-person station has all of the elements needed for maximum comfort and efficiency. From the height adjustable worksurfaces and personal storage elements to the addition of biophilia on the beam, this environment is ideal for individual work and collaboration.

Coordinated & Organized

When pairing the table desk and wall unit, it's easy to create a workstation that feels cohesive and poised. Integrated media and storage solutions turn this workspace into so much more.

Space Savers

Use single-sided units to maximize capacity or create space division in an open plan. EverySpace's unique mobile pedestals are great for storage and can also be used as impromptu seating.

Maximum Productivity

Choose the 90° straight extension worksurfaces to provide a larger working space with a cockpit feel. Partner those with the end console units and storage towers to provide ample and convenient space for personal and work items.

Make a Statement

With an adjustable height L-unit and an impressive storage wall, this executive office set up is ready to take command.

Flexibility is Key

The EverySpace beam brings power and data to worksurface height, making it easy to utilize technology for individual work or hybrid situations. Mobile tables with privacy screens and pedestal storage units can be rearranged to create flexible spaces, while beam mounted tops serve as a quick touchdown station.

Collaboration Station

For multipurpose areas, EverySpace easily supports gathering, displaying media, and impromptu seating. The screens not only provide audio and visual privacy, they offer design appeal by adding a punch of color.

Let's Meet

When gathering in person or in a hybrid environment, meeting spaces that offer media capabilities are in demand. EverySpace's storage components feature an integrated wire management channel and electrical power distribution so that technology and cords can be hidden.

Quick Sync

Brainstorm and huddle spontaneously by creating a workspace that has an integrated gathering area. No need to book a meeting room when your team area has the ability to assemble, knock out a plan, and get back to their individual spaces.

Small & Mighty

When space is at a premium, there's no need to compromise. EverySpace offers shallow depth storage and a variety of worksurface sizes to create just the right setup without missing a beat.

Open & Fresh

Utilize the power beam, worksurfaces, and storage to create a solution that accommodates everyone. The storage with base frame coordinates with EverySpace's angled legs to provide an open aesthetic.
